PDF Website: Beginner Guide

A simple step-by-step guide to using the site.

Step 1: Open the site and choose settings

- Open your website link in a browser.
- Choose your language: English, Urdu or Sindhi.
- Choose light or dark theme.

Step 2: Sign in

- Tap Sign in and log in with your GitHub account.
- You need a free GitHub account. Create one at github.com if you do not have one.

Step 3: Upload a PDF

- Tap Upload.
- Choose From device and select your PDF file.
- Tap upload and wait until it says the upload is done.

Step 4: Create a PDF on the site

- Tap Upload, then Make with customization.
- Type your text and choose page size and layout.
- Add images if you want, then save it as a PDF.

Step 5: View, listen, download and share

- Open any PDF from the list.
- Voice: tap the listen button to hear it read aloud, or play a recorded voice.
- Download: saves the PDF to your phone.
- Get link: copies the link so you can send it on WhatsApp.

Step 6: Check that it works

- Open the site in another browser or on another phone.
- Confirm your uploaded PDF shows there.
